## OBJECTIVE

---

Results-oriented DevOps Engineer with extensive experience in cross-functional collaboration, cloud optimization, and development leadership. Dedicated to driving innovation and delivering impactful solutions in dynamic team environments.

## EDUCATION

---

**Kristu Jayanti College, Autonomous**

*Master of Computer Science (MCA) : CGPA:8.1*

Bengaluru, IN

2019-2021

## TECH SKILLS

---

- **Programming Languages:** JavaScript, Python, SQL, NextJs
- **Developer Stack/Tools:** AWS, Kubernetes, Argo, Docker, CI/CD, Terraform, GIT, Jira, Prometheus, Grafana

## EXPERIENCE

---

**POWERSCHOOL INDIA PVT LTD**

OCT 2021 - Present

### Software Engineer 1

- **Argo Workflows Automation:** Developed automated deployment procedures using Argo Workflows with Bash scripting, **enhancing operational efficiency and consistency**
- **Full-Stack Development:** Designed UI and backend using Next.js and TypeScript for platform features, improving user experience and system functionality
- **RDS Backup Automation:** Automated AWS RDS backups to S3, **reducing downtime by 90 percent** in critical scenarios and improving disaster recovery
- **AWS EFS Multi-tenant Architecture:** Designed and deployed scalable AWS EFS for multi-tenant system with automated provisioning/decommissioning in Kubernetes, **reducing manual workload by 80 percent**
- **Terraform + EKS Orchestration:** Orchestrated AWS EKS clusters using Terraform, ensuring **scalable and robust infrastructure** for production environments
- **Release Management:** Led and executed stable production releases, ensuring minimal downtime and high system reliability

### Associate Software Engineer II

- **Kubernetes Optimization:** Optimized deployments by refining Helm configurations, managing dynamic secrets, and resolving StatefulSet scaling challenges
- **Azure to AWS Migration:** Led and executed seamless migration from Azure to AWS for **100+ applications**, ensuring smooth transition and project success
- **Infrastructure Enhancement:** Enhanced Kubernetes configurations to optimize system performance and scalability, improving operational efficiency
- Developed and improved both the user interface and the backend components, improving the efficiency of internal tools.

## Associate Software Engineer I

- **Component Development:** Developed reusable components, reducing development efforts and improving code maintainability
- **Issue Resolution:** Resolved 130+ Jira tickets, significantly reducing backlog and ensuring smooth project progression
- **Team Collaboration:** Collaborated with QA and Product teams throughout Agile life-cycle, ensuring high-quality and timely project delivery
- **Mentoring:** Mentored and onboarded new developer teams, facilitating integration and productivity in ongoing projects

## ACHIEVEMENTS

---

- **VP and Senior Director Recognition** - Highest number of bug resolutions (130+ tickets).
- **Power Team Award** - Best overall team performance at PowerSchool (2024).

## INTERNSHIP

---

### SHEVALUES

Full Stack Developer Intern

APR 2021 - JUN 2021

*Benagaluru, IN*

### Project Name: SHEVALUES- MVP - WEBSITE

- Translating designs and wireframes into high quality code.
- Developing new user-facing features using React.js.
- Design and implementation of low-latency, high-availability, and performance API Integration of user-facing elements developed by front-end developers with server-side logic and REST API's.
- Also, Contributed to data analytics using Excel and Tableau for data prediction.

## CERTIFICATIONS

---

- AWS Cloud Practitioner - Udemy.
- SQL for Data Analysis and Data Science.
- Data Engineering/Data Scientist – Power BI/ETL/Python.
- Tableau training for Data Science and Business Analytics.

## EXTRA-CURRICULAR ACTIVITIES

---

- Runner up for Inter-collegiate IT fest.
- Served as a coordinator and team lead for college fest SHELLS and MANOEUVRE conducted by Kristu Jayanti College.
